

A New Online Learning Module to assist the Positive Behaviour Support Process

An interactive and easy to use new online learning module. This module will guide you step by step through the process of completing a behaviour support template for situations where there are challenging behaviours.

- ✓ Explains the impact of the environment, the individual and social interactions on the function and purpose of particular behaviours
- ✓ Assists people in identifying and ultimately replacing behaviours
- ✓ Explores the types of strategies that can be implemented to make positive behaviour changes
- ✓ Enables users to complete their own behaviour template for someone they support
- ✓ Ideal for parents, families and school staff
- ✓ Available via the 'Start Learning Online' tile on the Positive Partnerships website
